

Technical data sheet

PE Shrink Wrap

AVAILABLE DIMENSIONS

Article number	Roll width	Roll length	Rolls / Pallet
2SCHRFO2	6.5 m	50 m	11 rolls
2SCHRFO1	8.5 m	50 m	11 rolls

TECHNICAL DATA

Material composition	LDPE film; biaxially shrinking	Thickness	0.15 mm
Weight	135 g/m ²	Colour	White
Elongation - lengthwise	~ 600 %	Elongation - crosswise	~ 650 %
Elongation	DIN 53370	Tear propagation resistance - lengthwise	~ 22 N / mm ²
Tear propagation resistance - crosswise	~ 22 N / mm ²	Tear propagation resistance	DIN 53370

PE Shrink Wrap

(1)

Pull the film off the roll and place it under the parts to be packed. Then load the loading platform or lower the load.

(2)

Pull the film up at the sides and fasten it to the element with adhesive tape or staples. Then secure the load with lashing straps.

(3)

If the elements are larger than the film, a second layer is pulled over from above. The film can be pulled over the load with the hall crane. Note: maintain an overlap of 40 – 50 cm!

(4)

Weld the overlap areas (40 – 50 cm) with the hot air blower.
